PRIMAL SUBSTANCE

Units of Consciousness, Morphogenetic Fields and Scalar Grids

1. **Partiki, Partika and Particum:**

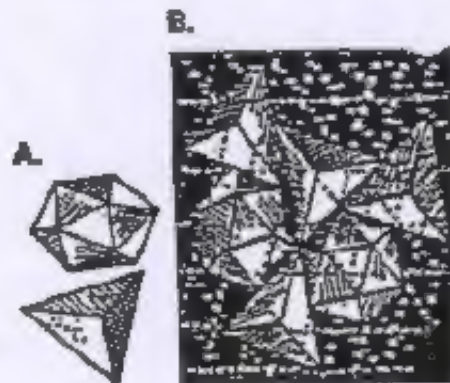

Smallest units of energy-substance. Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity. Operate as minute, perpetual motion fission/ fusion generators.

2. **Partiki Grids:** The fabric of morphogenetic field structure. Partiki units group to form interwoven Strands, then Grids of electro-tonal substance, out of which morphogenetic fields are fashioned. Out of a Unified Field of Partiki units, Partiki Grids form to create the frequency bands that make up dimensional fields and then to form individuated morphogenetic fields.

3. Partiki units continue to group or accrete upon the Partiki Grids, forming
A. Keyions – crystallizations of “frozen light” (standing scalar wave patterns and fixed points of tonal frequency), and
B. Keyion Codes – complex groupings of Keyions, which together form a crystalline template of light spectra, sound frequency and electro-magnetism that is the morphogenetic field **Crystal Body**– the Blueprint upon which matter and identity will manifest.

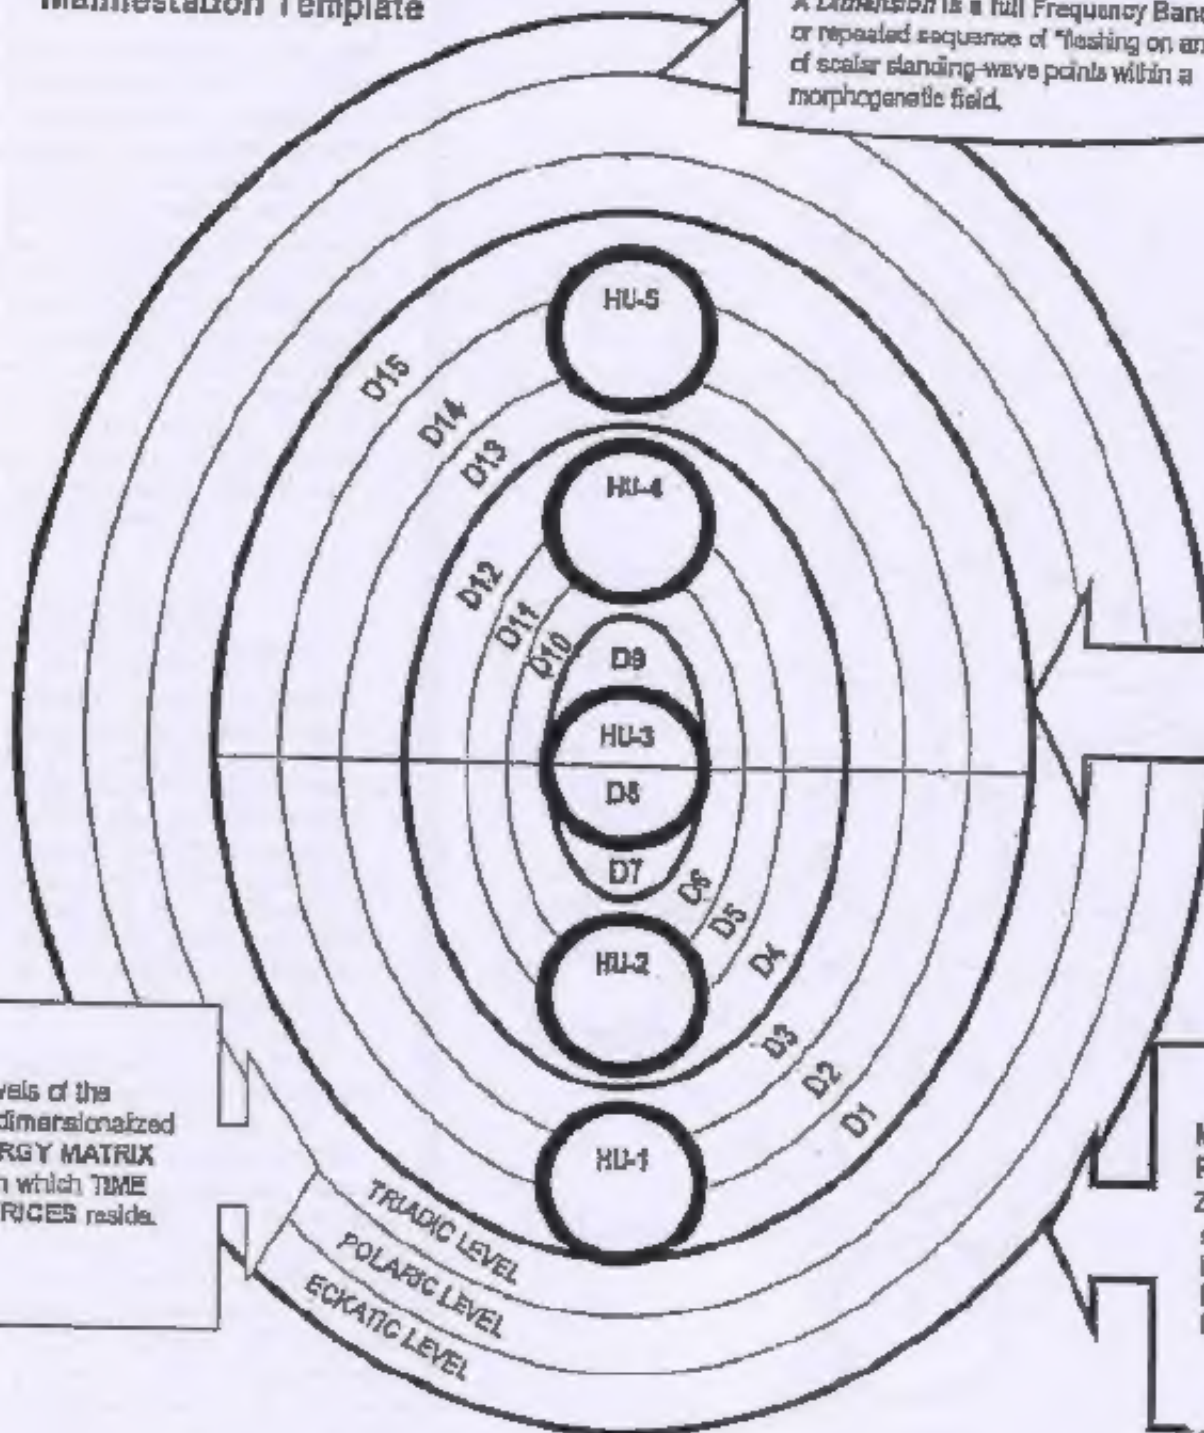

The Morphogenetic Field is made of interwoven Partiki Grids. The electro-tonal units of consciousness out of which Partiki Grids form create standing wave patterns – **scalar wave grids**, which hold the form of consciousness within dimensionalized manifestation. Morphogenetic Fields are thus **Scalar Grids**, that form in specific ordered interrelationship. Partiki Grids form upon the **core geometrical-mathematical structure of the Kathara Grid**, and so the Kathara Grid represents the **core Scalar Field** upon which form manifests.

Morphogenetic Fields govern the form of matter manifestation and the evolution of biology and consciousness. Morphogenetic Field mechanics thus hold the key to mastery of physical reality and Bio-Spiritual Evolution.

Structure of the Kathara Level-1 12-Tree Grid Core Scalar Template

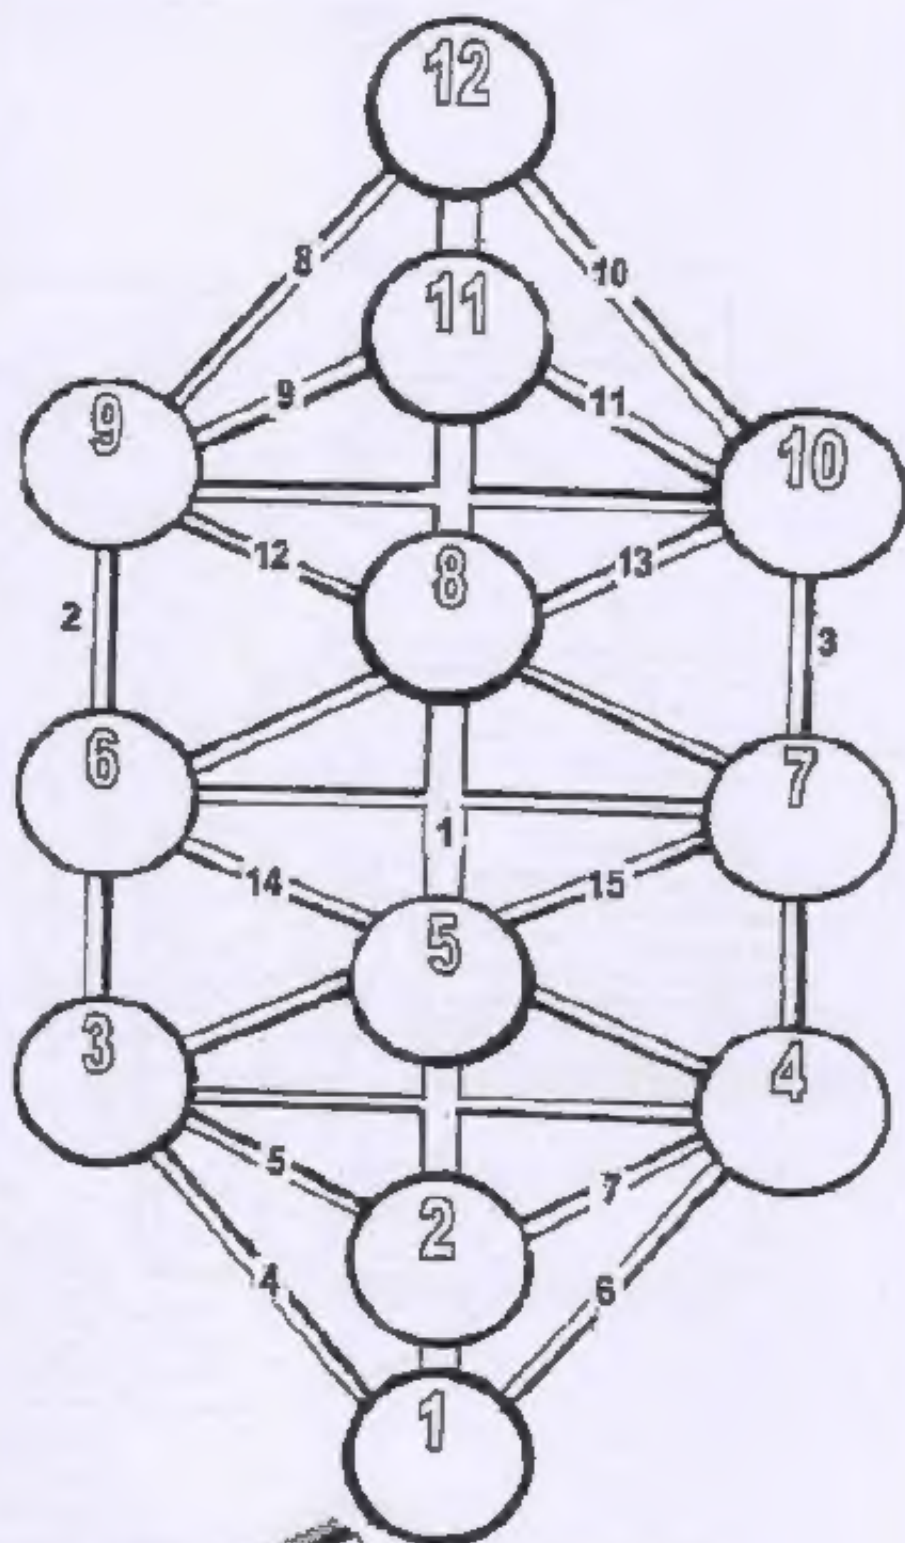

12 PRIMARY KATHARA CENTERS:

Kathara Centers are condensed Scalar Wave points that hold the core electro-tonal geometrical-mathematical program for dimensionalized structures. There are 12 Kathara Centers, each holding the program for one Dimension. The program for Partiki Phasing and Vibration-Oscillation for each Dimensional Frequency Band is set in the corresponding Kathara Center. The Kathara Centers set the template for each Dimension, to ground consciousness within the Holographic experience of manifestation.

15 PRIMARY KATHARA LINES:

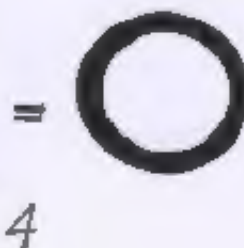

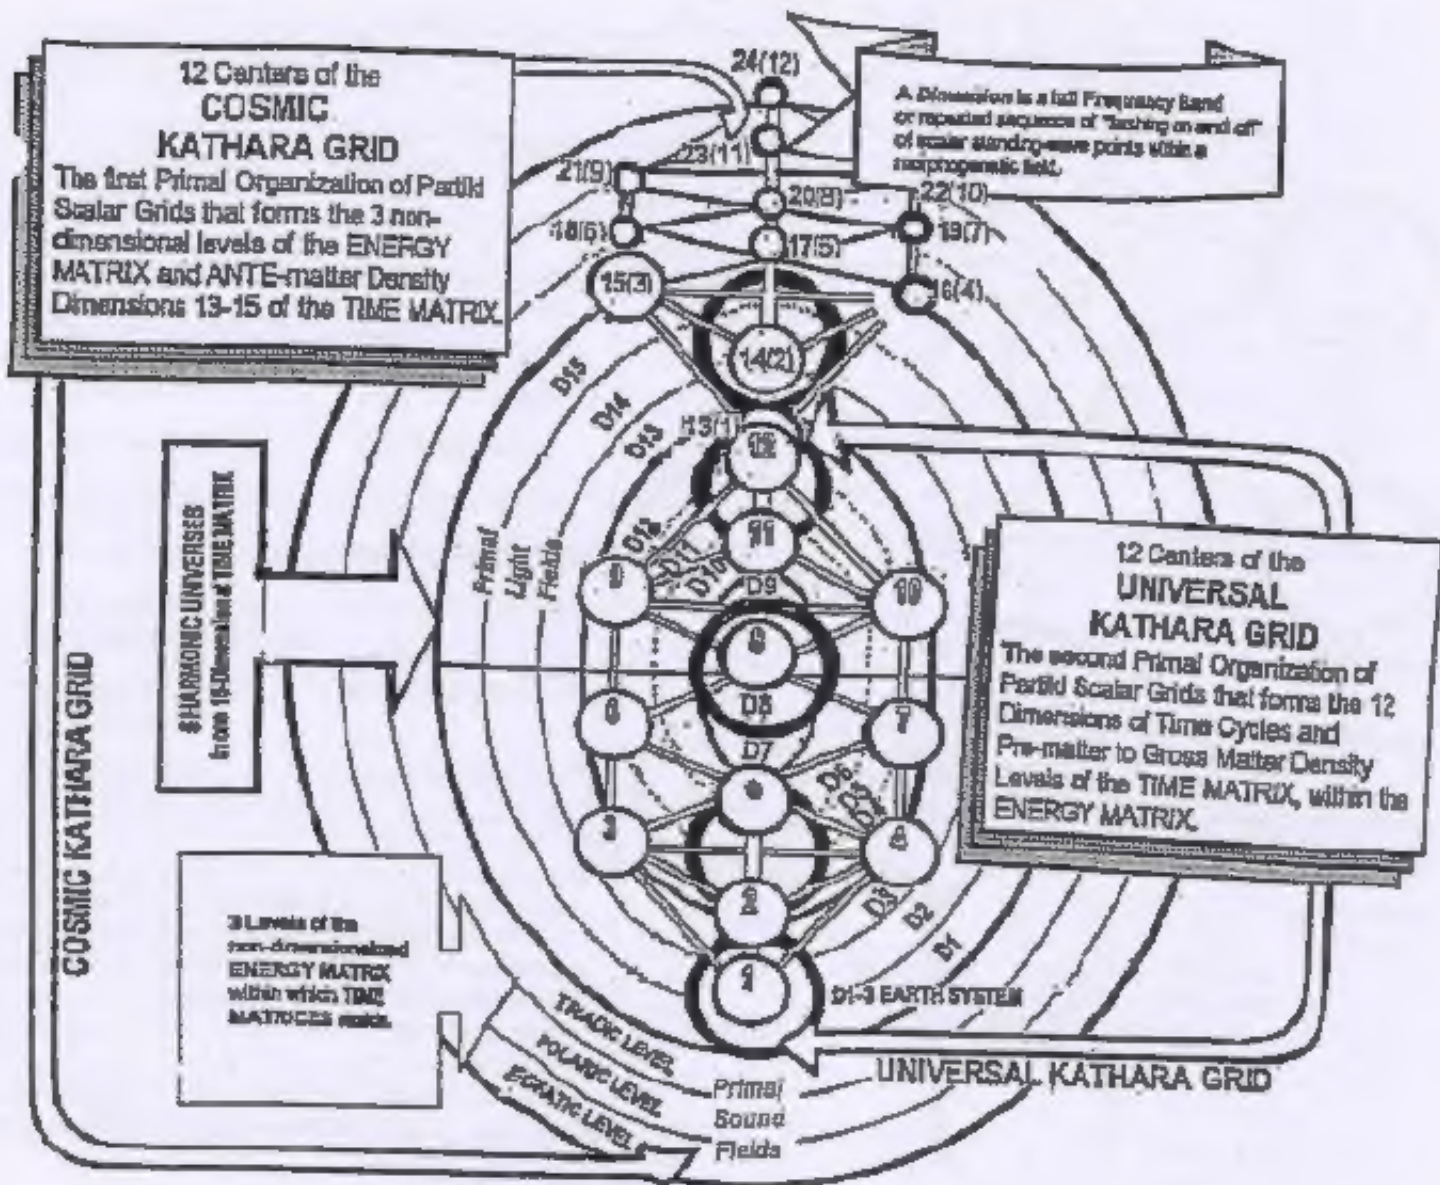

Kathara Lines are the primary sequences of Partiki Phasing that transmit the electro-tonal programs held within the Kathara Centers from one Dimension to another, to keep the continual flow of consciousness circulating throughout the 15-Dimensional levels of the Morphogenetic Field. When functioning properly, the Kathara Lines connect each Harmonic and Dimension of consciousness to the other and govern the synchronization of cycles of time within the Dimensional Fields and within the morphogenetic field, DNA and body rhythms of dimensionalized forms. The 3 Vertical Kathara Lines control the operation of the other 12 Kathara Lines. The Central Vertical Kathara Line is the control center for Partiki Phasing rhythms throughout the Kathara Line System.

The 12 SIGNET Star Crystal Seals of the Universal Kathara Grid. SIGNET SEALS are the core points of consolidated frequency corresponding to each Dimension that represent the first manifest arrangement of scalar waves created through the mathematical programs of the corresponding Kathara Centers. The Signets transmit the organizational programs upon which the Scalar Shields manifest. Each 3-Dimensional Scalar Shield manifests on the electro-tonal programs of 3 Signet Star Crystal Seals. Signet Seals keep the Harmonics of Matter Density separate from each other by keeping Particle units phase-locked into their 3-dimensional electromagnetic domain.

When released, Signet Seals serve as Star Gates, allowing the Time Cycles and Matter Density Levels within the Time Matrix to merge and blend. Signet Seals are the central control points for Scalar Shield programming.

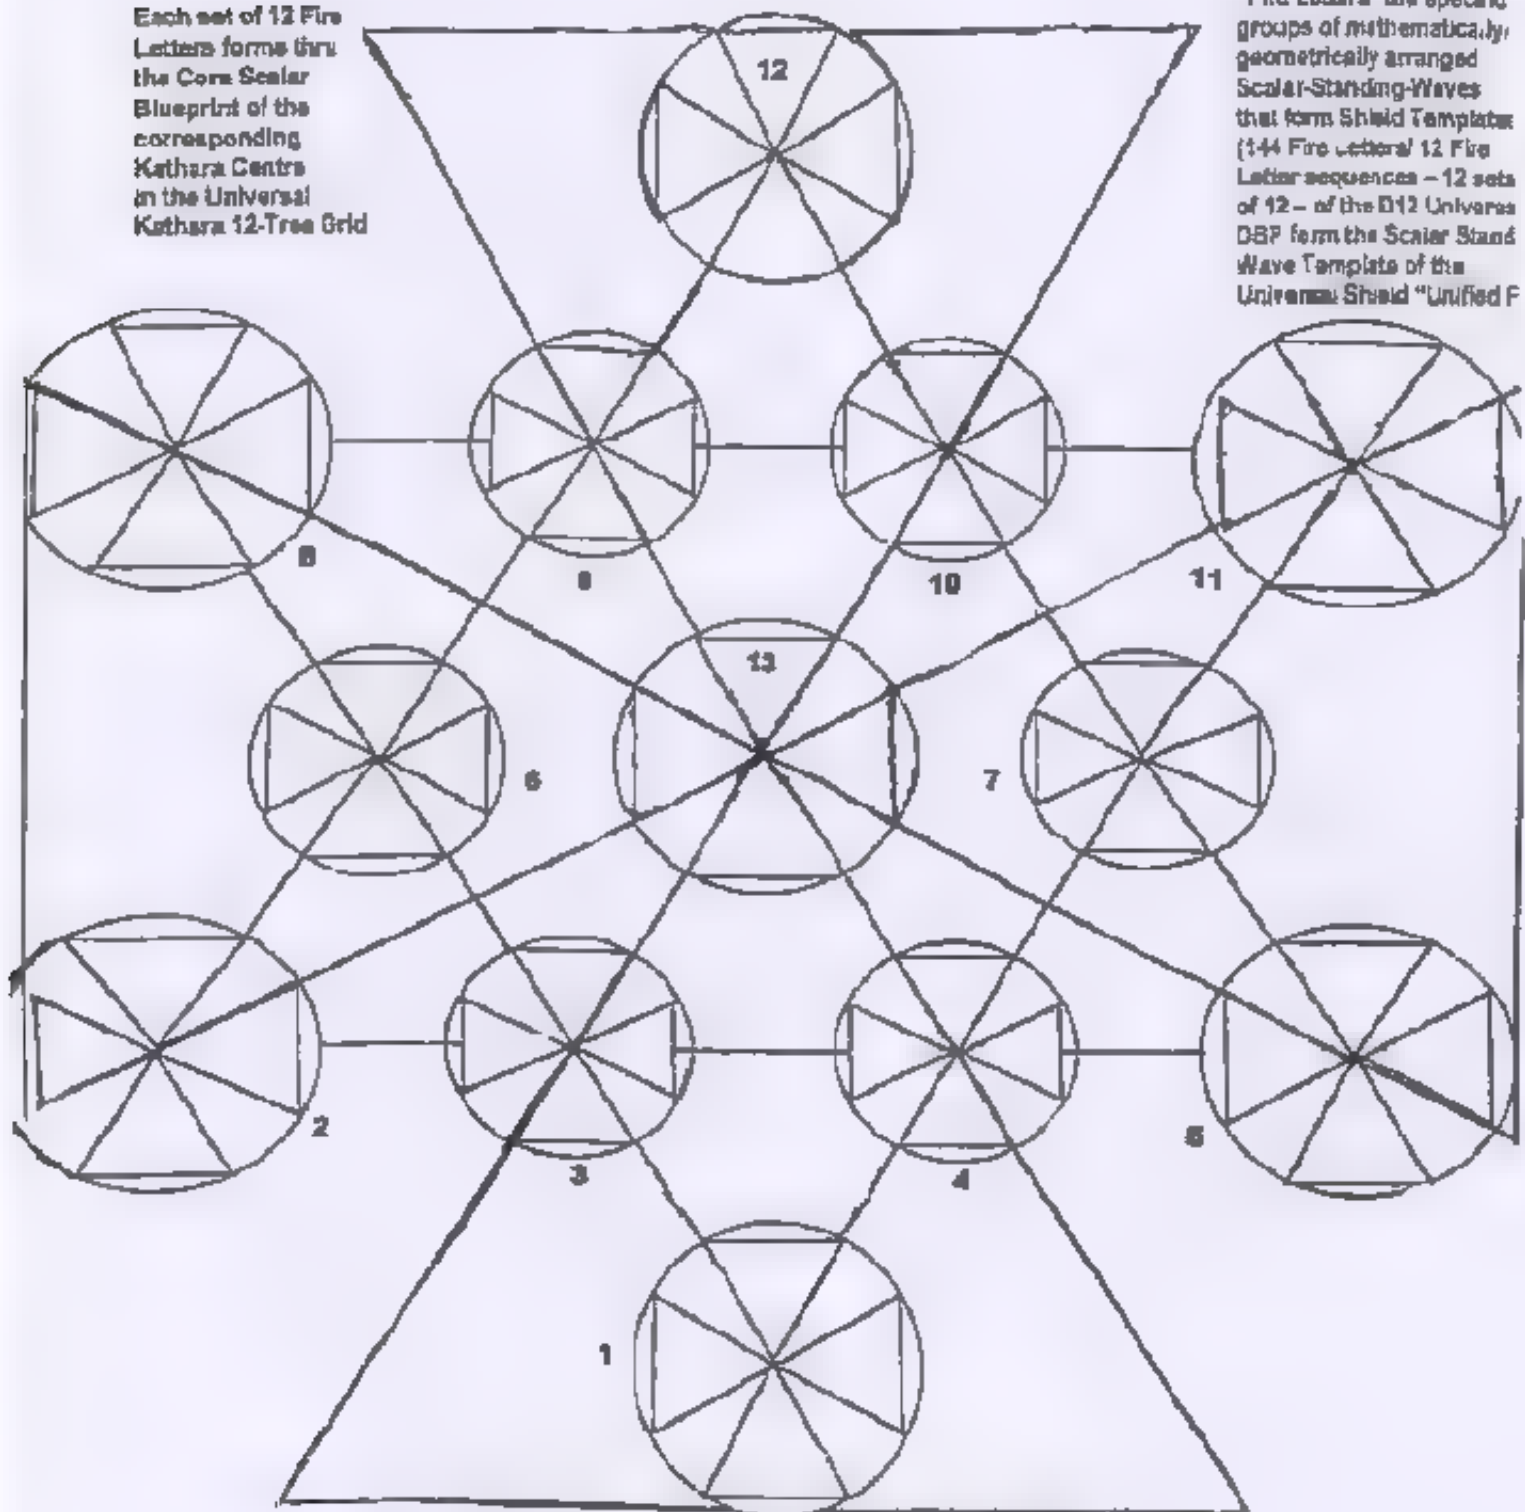

The structure of the macrocosmic Universal Templar Complex is replicated within the microcosmic structure of the personal Internal Templar Complex upon which 15-Dimensional Human Anatomy manifests.

Portals and Star Gates

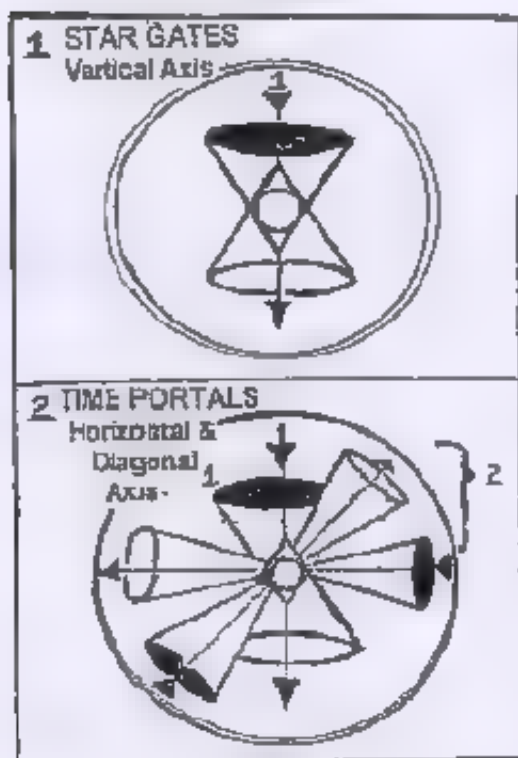

© 2000 Ashayana Deana

Star Gates and Portals are pairs of interconnected, counter-rotating electromagnetic field spirals that naturally exist within suns and planetary bodies and which also form at fixed points of space within the 5 Densities of the Universe where Time Cycles and Time Continua repeatedly pass through each other at fixed intervals. Star Gates and Portals exist as Black and White Hole Pairs that are connected at the center point by a scalar-frequency Seal. When Star Gates or Portals activate, the center Seal releases and the pair of counter-rotating electromagnetic spiral merge to form an interdimensional Merkaba Field, which allows for passage between various space-time coordinates.

Star Gates enter planets

The Planetary Bio-Feed Interface System

As the morphogenetic fields of species are interwoven into the larger morphogenetic field of the planet they inhabit, there is a direct energetic connection between the Kathara Grids of individuals and that of the planetary body. This connection between personal and planetary Kathara Grids is called the *Planetary Bio-feed Interface System™*, - PBIS.

Hova Bodies are spherical scalar wave grids that form tissue capsules between each 3-Dimensional Harmonic of Manifestation.
Signets are the core points of consolidated frequency that hold the programs for the Scalar grid SHIELDS upon which the Hova Bodies manifest.

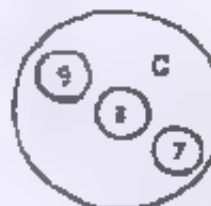

As Universal Life Force Currents activate in the Kathara Grid, DNA, Chakras, Auric Levels & body, natural awakening of the dormant Scalar Shields occurs.

The Signets and the Shields are the core of Kathara Level-2 Crystal Seals Grid

When activated, each SHIELD forms a rotating disc of scalar waves that emanate out from the body on a horizontal plane.

Auric Level, Chakra and Hova Body Correspondences

Chakras draw energy in from, and transmit energy into, the Unified Fields of each Dimension. Each Chakra carries as its Primary Color the hue associated with the wave-length of the dimensional frequency band to which the Chakra corresponds.

Each Chakra corresponds to a level of the Auric Field and one Axi-A-Tona Line. Each Hova Body corresponds to a set of 3 Chakras and contains 3 dimensionalized frequency bands that form the dimensional levels of Auric Field.

In Level-1 Kathara Healing we begin preparing the body and DNA Template to receive the higher dimensional Phase Currents by initiating transmission of the Doradic Phase-1 Healing Current- the *Pale Silver + Green + Violet* frequencies of dimensions 12, 11, 7 and 4.

Through the 7th-Dimensional aspect of the Teuric Shield and 11th and 12th Dimensional aspects of the Maharic Shield, the Doradic-1 Healing Current allows for recoding and realignment of the 1st-4th-Dimensional aspects of the Nada and Alphi Hova Bodies, the Telluric Shield and Physical, Emotional and Mental Bodies of Density-1, the D-4 aspect of the Doradic Shield and Astral Body, the 1st-4th DNA Strand Templates, the 1st-4th Chakras, and the 1st-4th Sub-harmonics of all Scalar Shields, DNA Templates, Hova Bodies and Chakras. Doradic-1 Healing Current is effective in clearing the Karmic-Miasmatic Imprint from the Density-1 Time Cycle incarnations and the beginning of Density-2 Time Cycle incarnations.

The Merkaba Star Orb from a Ascending Vehicle is created via progressive merging of the 4 Harmonic Merkaba Spirals from each of the 4 Density Layers. Each Harmonic Merkaba Spiral/energy creates a "Phase" of Merkaba Vehicle building and subsequent activation of the Antahkarana, Maharic and Kee-Ra-Sha "Yantra of Light" ("Ascension Tube") on each level of the Universal Life Force Currents and consciousness embody via activation of the 12-Strand DNA Template. The "Nethra Phase" Merkaba is in nature level-1, Density-1, 2-Dimensional Merkaba. Progressive building stages are the Shield (6-dimensional), Chakra (9-dimensional), Maharic (12-dimensional) and Rahuric (15-dimensional) Merkaba Phases.

The NATURAL Spin Ratio between the Top (Male-Electrical-CW-Anti-particle) Density-4 Christiac Merkaba Spiral and the Bottom (Female-Magnetic-CCW-Particle) Density-3 Rishic Merkaba Spiral is 33 1/3-CW-Male-Top to 11 2/3-CCW-Female-Bottom. The 33 1/3-CW/11 2/3-CCW Spin Ratio creates the NATURAL ratio of 33 2/3-Parts-Electrical Anti-Particles to 11 2/3-Parts Magnetic Particles, (or 33 1/3 energy expansion/vibration/thrust to 11 2/3 energy contraction/vibration/draw) within earth's Density-1 Matter Base, the organic Divine Blueprint of Density-1. This Christiac Internal than Magnetic which perpetually re-fuels itself via natural circulation of the Maharic, Kee-Ra-Sha and Khundaya Universal Life Force Currents.

Universa Vaca Elemental Life Christiac Merkaba Fields

In Universal Vaca Systems both the Padicum (PCM) and the Parallel Padma (PKA) Universes have two sets of 2 large Counter-rotating Merkaba Spirals, one set manifesting through the 12-Point Primal Kathara Templates, and one set manifesting through the 12-Point Density Kathara Templates for each universe. The two large Merkaba Spiral Sets of the Primal Kathara are called *Primal Bi-Vaca Merkaba Fields*, the smaller Merkaba Spiral Set within each Primal Bi-Vaca Merkaba Field is called a *Universal Single Bi-Vaca Merkaba Field*. The two Primal Bi-Vaca Merkaba Fields, and their inherent Universal Single Bi-Vaca Merkaba Fields all exist within a larger Counter-rotating Merkaba Spiral Set called an *Eckasha Core Tri-Vaca Merkaba Field*. Each Primal Bi-Vaca and Universal Single Bi-Vaca Merkaba Field contain within them 12 smaller Dimensional Merkaba Spiral Sets that group into sets of 3 Spiral Sets called *Density Bi-Vaca Merkaba Fields* through which 3-Dimensional Harmonic Universes and Dimensionalized Primal Light and Sound Fields are formed. Together the inter-woven Primal Bi-Vaca, Universal Single Bi-Vaca, Density

Dimensional and Eckasha Tri-Vaca Merkaba Fields comprise the *Christiac Merkaba Circulatory System* through which the *Perpetual Motion - Eternal Life First Creation* is kept in Motion via continuous elevation Of God-Force Consciousness in the form of Electro-magnetic Primal Life Force Currents.

The Lotus Bud Breath & the Azura Lotus Flow

ManA Lotus Breaths 7 - 24

ACTIVATING THE 'LOTUS SEED'

Technique 1: The "Lotus Bud" Breath

- 1 Complete Technique 8, Part A or B, before commencing the "Lotus Seed" Activation sequence.
- 2 Breathe easily for a few moments while focussing your attention on a large ball of Heliotalic energy located way out in the Universe at the Eoka Level (Density 6). The ball of Heliotalic Energy looks like a swirling mass of silvery, pastel, rainbow coloured hues. After August 15th, 2003, the Heliotalic Ball lies on a Central Vertical Axis (straight up above the Pineal Gland).
- 3 Forcefully INHALE, pulling the ball of silvery pastel rainbow frequency down the vertical Heliotalic line, into the AzurA Point, just below the Thymus.
- 4 Hold this inhaled breath while imagining that the ball of Heliotalic frequency now stored in the AzurA separates out into 6 smaller balls of silvery pastel rainbow coloured energy.
- 5 Forcefully EXHALE the six balls of Heliotalic energy outwards, simultaneously, in six directions, one vertically up, one vertically down, and 4 outwards at 45 degrees to the vertical axis of your body, to a distance of about 1 inch from the surface of your body (the limit of your Etheric body "skin").
- 6 Hold the breath briefly while imagining, or feeling, the 6 balls of silvery pastel Heliotalic frequency stationed in your Etheric body ... and . .
- 7 INHALE forcefully, bringing the 6 balls of Heliotalic energy back into the AzurA.
- 8 REPEAT according to inner guidance, to build Heliotalic frequency in the AzurA and Etheric body field.

Technique 2a: The First 6 ManA Breaths

- 1 From the final Inhaled of the "Lotus Bud" breath, hold the silver pastel rainbow ball of Heliotalic frequency at the AzurA, momentarily ...
- 2 Breathe easy for a few moments, whilst once again imagining the large ball of pale silvery rainbow energy, separating out into 6 smaller balls of energy.
- 3 Prepare for a sequence of 8 rapid INHALE: EXHALE breaths. During each breath, visualise or imagine pushing the 6 balls of energy out, on each exhale, through each of the 6 Density Merkaba grids stationed at D4, D7, D10, D13 and the Eoka D1 and Eoka D4 Void. Push the energy balls in 6 directions, simultaneously, as before (1 vertically up, 1 vertically down, and 4 outwards at 45 degrees to the vertical axis of your body).
- 4 Breathe the 6 breaths. Note: In the earliest stages do this gently/ slowly, before adopting a more rapid and forceful breathing technique.
- 5 On the sixth and final INHALE, draw the 6 balls of energy back into the Azur-A.

Technique 2b: The Second Sequence of 6 ManA Breaths

- 1 From the final Inhaled of the first 6 breaths, returning the ball of pale silvery rainbow energy to the Azur-A, EXHALE pushing the large ball of energy from the Azur-A down to the E-Umbi Point just below the navel.
- 2 Repeat steps 2-5 above, drawing the 6 balls of pale silvery rainbow energy, on the six and final breath back into the E-Umbi ...

Technique 2c: The Third Sequence of 6 ManA Breaths

- 1 From the final Inhale of the second 6 breaths, returning the ball of pale silvery rainbow energy to the E-Umbi EXHALE pushing the large ball of energy up from the E-Umbi to the Rajna Point at the Pineal.
- 2 Repeat steps 2-5 above, drawing the 6 balls of pale silvery rainbow energy, on the sixth and final breath, back into the Rajna Point at the centre of the Pineal.

Technique 2d: The Fourth Sequence of ManA Breaths

- 1 From the final inhale of the third 6 breaths, returning the ball of pale silvery rainbow energy to the Rajna Point, EXHALE pushing the large ball of energy down to the Mahadra Point at the centre of Earth's Core.
- 2 Repeat steps 2-5 above, drawing the 6 balls of pale silver energy, on the sixth and final breath, back into the Mahadra Point at Earth's Core, "popping" the Bottom Spiral Universal Merkaba Seal 14.
- 3 Exhale gently, INHALE and forcefully EXHALE pushing the pale silvery rainbow ball of energy UP through the LE-Ta U-A, Kathara Centre Pineal, and on up to Chakra 14, 36" above the head, "popping" the Top Spiral Merkaba Seal 14.
- 4 Breath easy, spending a few minutes to feel the circulation of energy throughout the Lotus petals formation in the Density Fields around you . . .

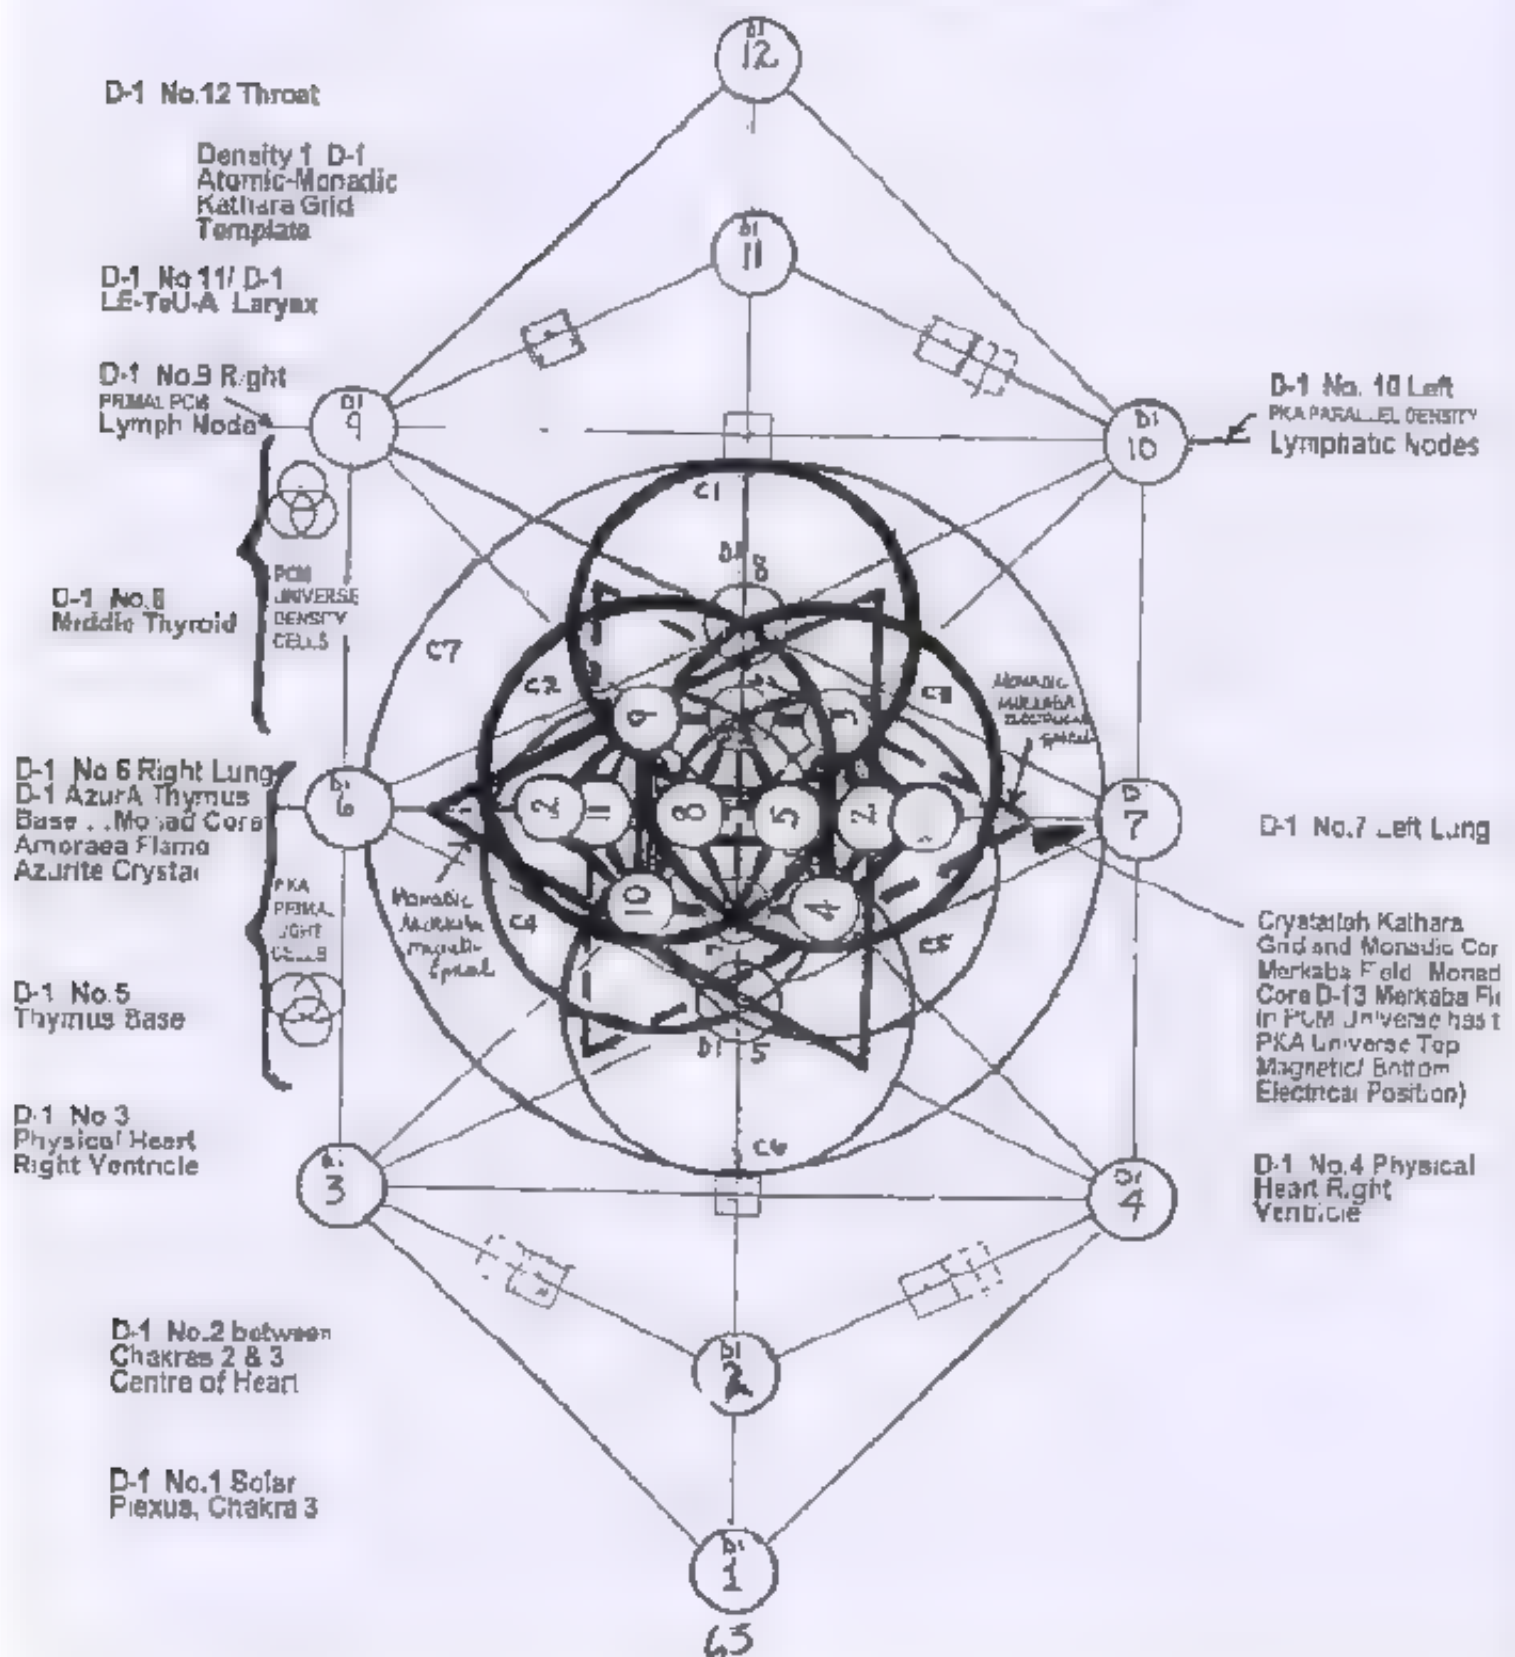

NOTES:

For Hathara the entire sequence above will be performed completely, just once. All participants will continue to breathe with and through the 6 point axis of the Lotus petal grid (Like a 6 point Star) throughout the 11:11-12:12 period, visualising, as far as possible, that each person is going to the centre of the Temple of Khemalohatza of Inner Earth, being greeted by Eleyani, etc. etc.

QUESTIONS:

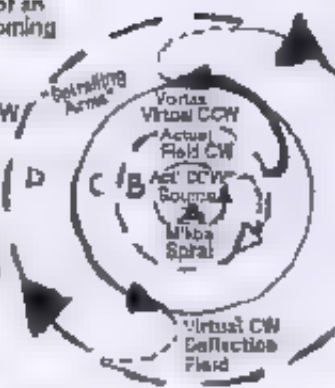

- 1 After completion of each group of 6 breaths, the six axis grid is effectively shifted to the next centre (E-Umbi, Rajna, Mahadra) along with the large ball of heliotatics.
- 2 Each of the 6 Exhale breaths is used to push the 6 small balls, simultaneously, outward on each line of the 6 line axis (one ball per line). The balls are NOT pulled back to the beginning point after each breath but remain stationed at first Density 1 then Density 2, etc. until reaching Density 6 before being pulled back, simultaneously, to the beginning point.

The "In-Breath" & "Out-Breath" of God and the Christos Seed Atom

Counter Rotating Christac Merkaba Spiral Sets & Radial Bodies

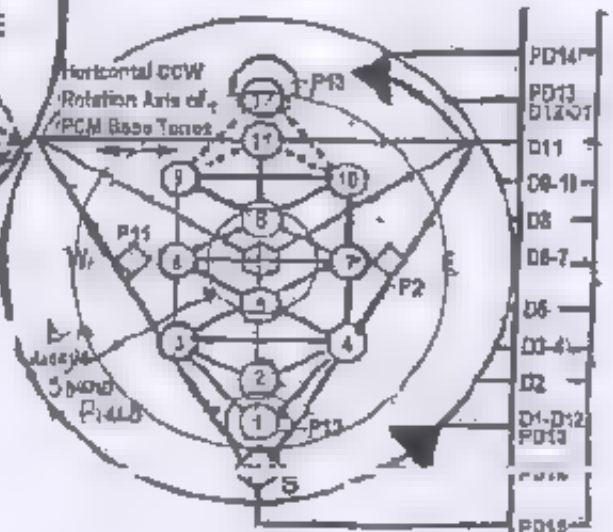

All things manifest possess Merkaba Fields. In all Natural Christac Eternal Life Merkaba Spiral Sets, one Spiral Spins Clockwise circulating Life Force into Manifest Expression, while the other Spiral simultaneously spins Counter-clockwise circulating Life Force back out of Manifestation in return to God-Source, for renewal. The Merkaba Spiral Sets are Ordered Wave Form Structures through which Consciousness, as Primordial Life Force Current, perpetually circulates, into and out of Manifestation.

The "In-Breath" of God - PCM Universe "Bottom" Universal Merkaba Spiral PCM-Particle, "Base Magnetic CCW Spin out-going-contracting" "De-manifesting" EIRA Spiral

The 2 Counter-rotating spirals in a natural Merkaba Field Spiral Set are linked together through the Christos Seed Atom that is situated within the Azura Kathara Grid Centre Point.

The Christos Seed Atom opens and closes at specific set intervals to allow Life Force to return to Source, while new Life Force enters the Seed Atom for renewed Manifestation.

The 2 Inter-woven Merkaba Spirals also rotate on a Vertical Axis from the Seed Atom Centre Point. The Vertical Axis rotation of a Merkaba Field creates the Parameter Field or Radiant Body within the D13-D16 Primordial Light Fields.

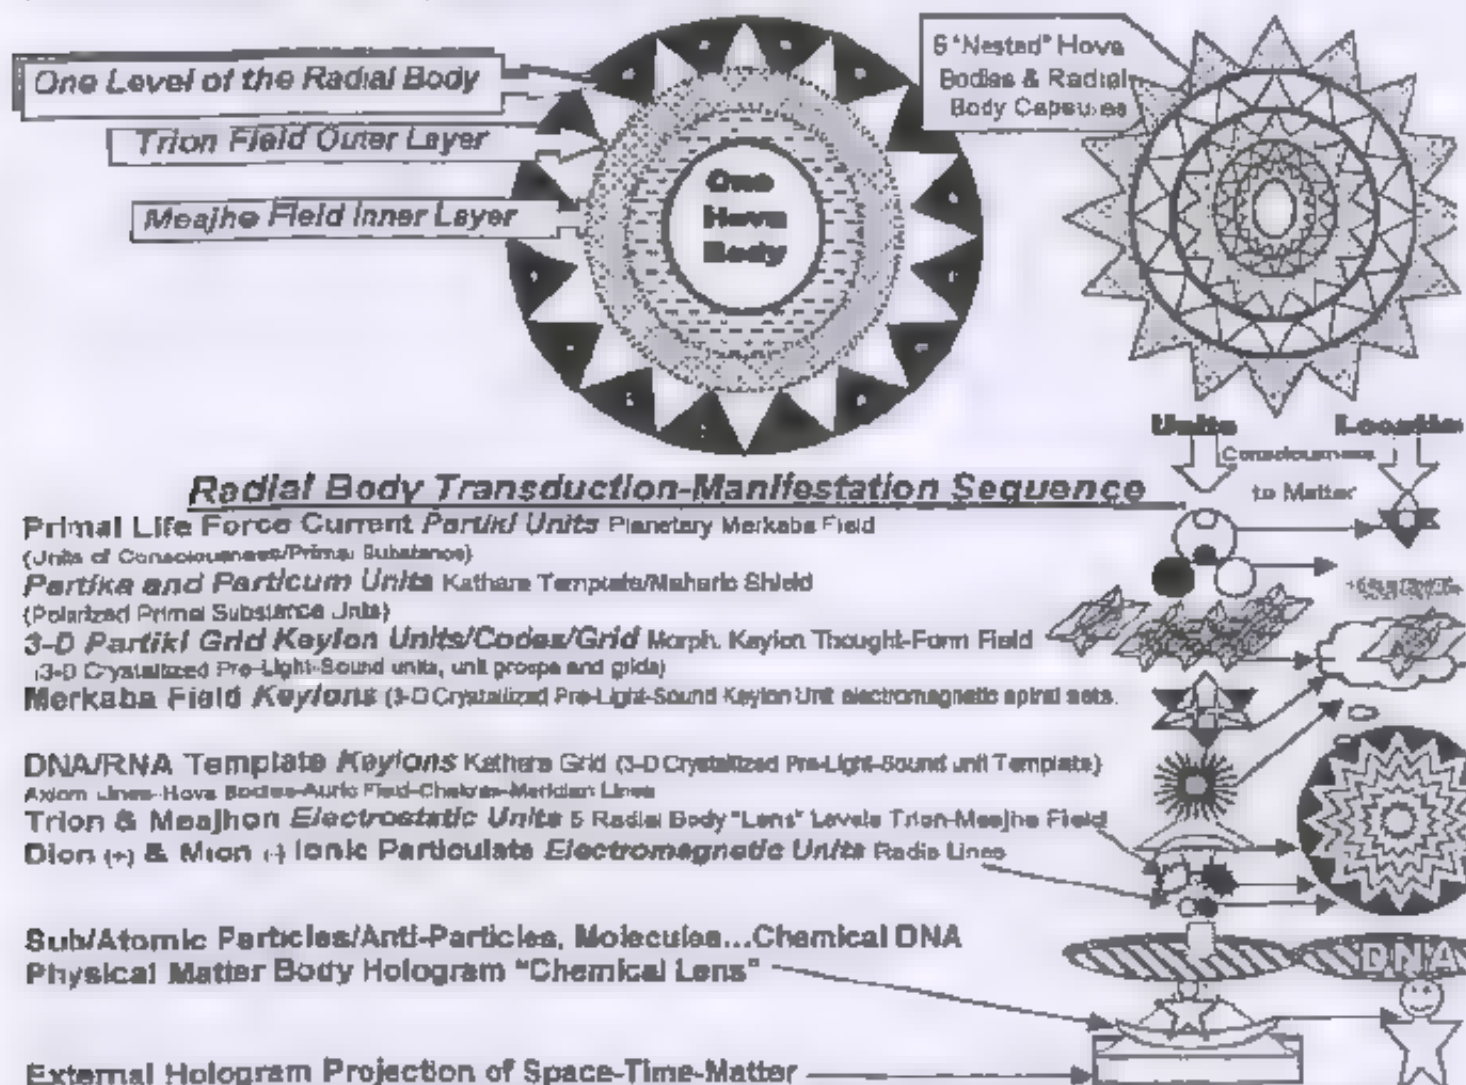

NOTE: The Merkaba Field Spiral Set is called the Actual Field, the Universal Shield Divine Blueprint is the Base Field and the Primordial Light Radiant Body is the Parameter Field

The Radial Body Tissue Capsule, Radis & the Mechanics of Manifestation

The Radial Body exists as a thin "Tissue Capsule" surrounding each of the 5 Hova Bodies. Each of the 5 Radial Body Levels are composed of an Outer Layer of e-7/6- neutral-charge Trion Primal Light Units and an Inner Layer of Meajhon Primal Sound Units. Each of the 5 Levels of the Radial Body serve as the polarizing filter or "lens" through which Multidimensional Primal Life Force Currents flow, via Merkaba Field circulation, from the Kathara Grid and DNA Template, into manifest form.

NATURAL ASTRAL BODY ANATOMY

The "Astral Body" is an electromagnetic replica imprint of the 3-dimensional Density-1 body that forms from the Primal Life Force Fields of the *Eiros* (D-7, D-5 Eion Field), *Eira* (D-10 Moalthe Field), *ManA* (D-11 Tion Field) and *Mina* (D-12/13 Raion Field) of the combined Density-1 and Density-2 Radial Bodies. The Astral Body vehicle activates when the Dimensional-Lock Seals (Duck Seals) between the Density-1 D-3 Mental Body open to the Density-1 Radial Body and the Density-2 Dimensional-Lock Seals between the Density-2 D-4 "Astral" body and the Density-2 Radial Body open to each other, allowing the Density-1 D-3 Mental body consciousness to expand into the Density-2 D-4 frequency bands. The Density-1 D-3 consciousness expands to Density-2 D-4 through release of the Dimensional-Lock-3 Seal, from the D-4 focus of consciousness, the Density-1 D-3 Mental-Atmospheric Plane one full dimension below the station of consciousness is perceived as the "solid" holographic field. The Density-1 D-3 consciousness continues expansion to the Density-2 D-5 frequency bands, through release of Dimensional-Lock-4 Seal from the D-5 focus of consciousness, the D-4 "Astral" Plane, or Density-2 Atomic Plane is perceived as the "solid" holographic field. The ability to Astral Project develops with progressive activation of Strands 4 and 5 of the DNA Template, through which the Dimensional-Lock Seals that keep the D-3 Mental body consciousness confined to one Density and space-time occur release, allowing the Density-1 D-3 Mental Body "ego" awareness to traverse other regions of space-time and density. As the Strand-4 DNA Template naturally activates, the abilities of coherent dreams recall, lucid dreaming and simultaneous dreaming first emerge, as the D-3 Mental Body consciousness first expands into the Density-1 Radial Body levels. As Strand-4 activation continues and the D-3 Mental Body moves into D-4 frequency, the D-3 Mental Plane comes into solid, more coherent view, followed by the D-4 Astral Plane with Strand-5 activation.
